

Mission Statement

It shall be the Mission of the Society of Amateur Radio Astronomers (SARA) to:

- Facilitate the flow of information pertinent to the field of Radio Astronomy among our members.
- Promote members to mentor newcomers to our hobby, and share the excitement of radio astronomy with other interested persons and organizations.
- Promote individual and multi station observing programs.
- Encourage programs that enhance the technical abilities of our members to monitor cosmic radio signals, as well as to share and analyze such signals.
- Encourage educational programs within SARA and also educational outreach initiatives thru student and teacher grants for radio astronomy projects.
- The Society of Amateur Radio Astronomers, Inc. is a membership supported, non-profit [501(c) (3)], educational and scientific corporation.
